

Building better futures  
for children with disabilities

## Supporting Inclusion

Provides specialist support and strategies for teachers or educators for your child's Inclusion at school.

At Noah's Ark we have been supporting children's inclusion at childcare, school and kindergarten for decades.

We have conducted research on inclusive practices, published books and supported the development of professionals by providing training to thousands of educators.

We have developed an approach that focuses on:

- Adapting routines and activities
- High expectations for children's learning and development
