

Building better futures
for children with disabilities

Bursts of Learning and Therapy

What is it?

- A 'Burst' of therapy when you or your child needs more frequent or intensive support (e.g. When you start working with us, during the transition to school, following hospitalisation...)
- A recommended approach that is valued by families.
- A strategy for supporting you and your child to promote your child's learning and development.
- A responsive and flexible approach to meet your child and family needs.

How does it work?

- We talk with you about the frequency, intensity and duration of the service you require.
- We schedule appointments according to you and your child's needs.
- We provide more frequent visits when you or your child needs it.
